ORDINANCE NO. 39-08

AN ORDINANCE AUTHORIZING THE CITY TO ENTER INTO AN AGREEMENT BETWEEN THE CITY OF JACKSON, OHIO, AND CT CONSULTANTS, 35000 KAISER COURT, WILLOUGHBY, OHIO 44094, FOR ENGINEERING SERVICES FOR THE REPLACEMENT OF WATERLINES RELATED TO THE STATE ROUTE 93 WIDENING PROJECT, AND DECLARING AN EMERGENCY.

WHEREAS, the State of Ohio will be proceeding to widen State Route 93; and

WHEREAS, due to the widening project it will be necessary for the City of Jackson to replace a water main; and

WHEREAS, CT Consultants is a firm qualified to perform engineering services to assist the City in preparing for the replacement of the water main; and

WHEREAS, the City and CT Consultants desire to enter into a contractual relationship whereby CT Consultants can provide engineering services to assist the City in the replacement of the existing water main along State Route 93.

NOW, THEREFORE, BE IT ORDAINED BY THE COUNCIL OF THE CITY OF JACKSON, STATE OF OHIO, as follows:

Section One. The Mayor and/or City Council President is authorized to enter into an Agreement between the City of Jackson, Ohio, and CT Consultants, 35000 Kaiser Court, Willoughby, Ohio 44094, to provide engineering services for the replacement of approximately 4,000 feet of existing water main along State Route 93. A copy of the Agreement is attached hereto as Exhibit "A". The cost of this contract shall be in an amount not to exceed Forty One Thousand Five Hundred and No/100 Dollars (\$41,500.00), which shall include on site inspections. This contract shall be paid from line items 228-7625-54005 – Community Improvement Fund: Utility Distribution Systems.

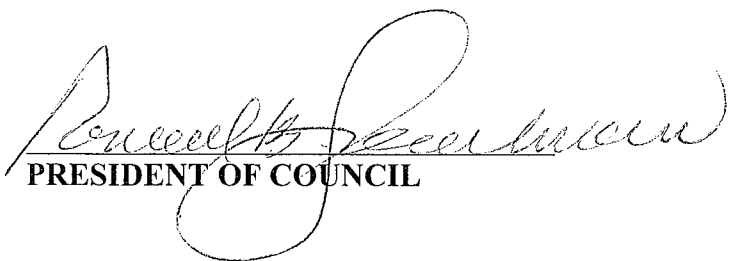

Section Two. This Ordinance is hereby declared to be an emergency Ordinance necessary for the immediate preservation of the public peace, health, or safety of the City of Jackson, in that it is necessary to enter into this agreement as soon as possible to timely and adequately address the issues involved in replacing the water main in order that the State Route 93 widening project may remain on schedule. Therefore, this Ordinance shall go into effect upon passage and approval by the Mayor, as provided in Ohio Revised Code Section 731.30.

Section Three. In the event this Ordinance receives a majority vote for passage but fails to receive the required number of votes to pass as an emergency, then this Ordinance shall be deemed to have passed but with no emergency clause and shall take effect at the earliest time permitted by law.

Section Four.

It is hereby found and determined that all formal actions of this Council relating to the adoption of this Ordinance were adopted in an open meeting of this Council, and that the deliberations of this Council that resulted in such formal actions, were in a meeting open to the public, in compliance with all legal requirements, including Section 121.22 of the Ohio Revised Code.

Jackson, Ohio 45640

**Re: State Route 93
Water Main Replacement**

Dear Mr. Sheward:

We are pleased to submit this proposal to provide professional engineering services to the City of Jackson for the replacement of approximately 4,000 feet of existing water main along State Route 93. CT Consultants, Inc. (CT) will perform the services described below for the City of Jackson, hereinafter referred to as the "City", in accordance with the terms and conditions set forth herein and the attached set of standard terms and conditions.

SCOPE OF SERVICES

Task 1 – Surveying Services

- 1) CT will rely upon the information presented in the existing Ohio Department of Transportation (ODOT) roadway plans prepared for this area.
- 2) Re-establish the survey control from the ODOT plans.
- 3) Contact the Ohio Utilities Protection Services to locate the existing utilities along the waterline route and then perform a location survey for these existing utilities within the project limits.
- 4) Perform full right-of-way survey for the area beyond the ODOT plan information as required for the proposed improvements.

Task 2 – Design Services

- 1) Prepare detailed improvement plans for the construction of the water main and appurtenances.
- 2) The design plans shall show new service connections in the locations depicted on the ODOT plans to serve the adjacent properties.

- 3) Prepare technical specifications and bid documents.
- 4) Prepare and submit the permit to install application to the Ohio EPA.
- 5) Submit plans to ODOT for approval. Assist the City with completing the ODOT forms necessary to receive reimbursement for the portion of the waterline improvements inside the city Corporation limits. This proposal is prepared with the understanding that the ODOT right-of-way has been acquired and property pins for the new right-of-way are installed.
- 6) Perform a quantity take-off and prepare an opinion of the probable construction cost.

Task 3 - Bidding Services.

- 1) Provide bid packages for distribution to prospective contractors.
- 2) Answer questions during the bid period.
- 3) Prepare and issue any addendums required to clarify the bidding documents.
- 4) Attend the bid opening
- 5) Prepare a tabulation of the bids received and provide a summary letter.

Task 4 - Construction Services.

- 1) Prepare construction contract documents for execution by the City and Contractor.
- 2) Attend and conduct a pre-construction meeting.
- 3) Review shop drawings and provide comments.
- 4) Clarify design issues regarding interpretation of the plans and specifications during the construction period.
- 5) Assist the City with processing the Contractor's applications for payment.
- 6) Assist the City with the preparation of contract close-out documents.

INFORMATION/SERVICES PROVIDED BY THE CLIENT

The Client (City) will provide information or services which will include:

- 1) Information relative to the project and assist with obtaining pertinent information from others.
- 2) The Client will make every effort to make the necessary provisions for CT to enter upon public and private property as required for CT to perform services under this agreement.
- 3) The Client shall examine documents prepared by CT Consultants and render timely written responses.
- 4) The Client shall give prompt notice to CT Consultants whenever the Client becomes aware of any development that affects the scope or timing of CT Consultants' services.
- 5) Provide an electronic copy of the existing State Route 93 ODOT plans to utilize the existing data for design purposes. The City shall hold CT harmless for any impacts due to the reuse of the data from the ODOT plans.

SCHEDULE

We are prepared to begin these services immediately and complete the bidding documents within eight (8) weeks from the date of acceptance and authorization to proceed.

FEES

CT will accomplish the work outlined in the above Scope of Services on a lump sum basis. Invoices will be submitted monthly based upon time actually spent on the project. Payment is due upon receipt of invoice and past due 30 days after receipt.

The following is a breakdown of our fee to complete the work for each item as outlined in the Scope of Services:

Task 1 -- Surveying Services	\$ 9,000
Task 2 - Design Services	\$ 21,000
Task 3 - Bidding Services	\$ 3,000
Task 4 -- Construction Services	\$ 6,500
Total Fee	\$ 39,500

Mr. Sheward
March 5, 2008
Page Four

ADDITIONAL SERVICES

The following services are not included in our fee, but may be provided as additional services as requested by the Client:

- Water distribution modeling
- Easement preparation
- Attendance at construction progress meetings
- Construction inspection services
- Preparation of record drawings

CLOSURE

We appreciate the opportunity to submit this proposal and are available to proceed upon approval. Should you have any questions, please do not hesitate to contact us.

Respectfully submitted,

CT CONSULTANTS, INC.

Timothy Clapper, P.E.
Senior Engineer

cc: J. Wesley Hall, P.E., Regional Manager

ACCEPTANCE & AUTHORIZATION TO PROCEED

If you concur with these terms and conditions and would like CT to proceed with the aforementioned work, please sign and date this letter proposal in the space provided below, initial and date the attached Standard Terms and Conditions on Page 1 and return one (1) copy to our office.

City of Jackson, Ohio

Signed: _____

Date: _____

**CT CONSULTANTS
STANDARD TERMS & CONDITIONS**

The following conditions and provisions define the basic terms relating to the services and compensation agreed to and as outlined on the attached Letter Agreement and/or Work Authorization.

OWNER:

ENGINEER: CT Consultants, Inc.

AGREEMENT DATE:

INITIAL: _____

ARTICLE 1 - SERVICES OF ENGINEER

1.01 Scope

A. ENGINEER shall provide all Services set forth herein and upon this Agreement becoming effective, ENGINEER is authorized to begin unless otherwise stipulated to by the OWNER.

ARTICLE 2 - TIMES FOR RENDERING SERVICES

2.01 General

A. ENGINEER's services and compensation under this Agreement have been agreed to in anticipation of the orderly and continuous progress of the Project through completion. Unless specific periods of time or specific dates for providing services are specified in this Agreement, ENGINEER's obligation to render services hereunder will be for a period which may reasonably be required for the completion of said services.

B. If in this Agreement specific periods of time for rendering services are set forth or specific dates by which services are to be completed are provided, and if such periods of time or dates are changed through no fault of ENGINEER, the rates and amounts of compensation provided for herein shall be subject to equitable adjustment. If OWNER has requested changes in the scope, extent, or character of the Project, the time of performance of ENGINEER's services shall be adjusted equitably.

C. For purposes of this Agreement the term "day" means a calendar day of 24 hours.

2.02 Suspension

A. If OWNER fails to give prompt written authorization to proceed with any phase of services after completion of the immediately preceding phase, or if ENGINEER's services are delayed through no fault of ENGINEER, ENGINEER may, after giving seven days written notice to OWNER, suspend services under this Agreement.

B. If ENGINEER's services are delayed or suspended in whole or in part by OWNER, or if ENGINEER's services are extended by Contractor's actions or inactions for more than 90 days through no fault of ENGINEER, ENGINEER shall be entitled to equitable adjustment of rates and amounts of compensation provided for elsewhere in this Agreement to reflect, reasonable costs incurred by ENGINEER in connection with, among other things, such delay or suspension and reactivation and the fact that the time for performance under this Agreement has been revised.

ARTICLE 3 - PAYMENTS TO ENGINEER

3.01 Methods of Payment for Services and Reimbursable Expenses of ENGINEER

A. *Preparation of Invoices.* Invoices will be prepared in accordance with ENGINEER's standard invoicing practices and will be submitted monthly to OWNER by ENGINEER, unless otherwise agreed. The amount billed in each invoice will be calculated as set forth in the Agreement including additional services and reimbursable costs, if any.

B. *Payment of Invoices.* Invoices are due and payable within 30 days of receipt. If OWNER fails to make any payment due ENGINEER for services and expenses within 30 days after receipt of ENGINEER's invoice therefor, the amounts due ENGINEER will be increased at the rate of 1.0% per month (or the maximum rate of interest permitted by law, if less) from said thirtieth day. In addition, ENGINEER may, after giving seven days written notice to OWNER, suspend services under this Agreement until ENGINEER has been paid in full all amounts due for services, expenses, and other related charges. Payments will be credited first to interest and then to principal.

C. *Disputed Invoices.* In the event of a disputed or contested invoice, only that portion so contested may be withheld from payment, and the undisputed portion will be paid.

D. *Payments Upon Termination.*

1. In the event of any termination, ENGINEER will be entitled to invoice OWNER and will be paid for all services performed or furnished and all Reimbursable Expenses incurred through the effective date of termination.

2. In the event of termination by OWNER for convenience or by ENGINEER for cause, ENGINEER, in addition to invoicing for those items identified in paragraph 3.01, shall be entitled to invoice OWNER and shall be paid a reasonable amount for services and expenses directly attributable to termination, both before and after the effective date of termination, such as reassignment of personnel, costs of terminating contracts with ENGINEER's Consultants, and other related close-out costs, using normal methods and rates.

ARTICLE 4 - OPINIONS OF COST

4.01 Opinions of Probable Construction Cost

A. ENGINEER's opinions of probable Construction Cost provided for herein are to be made on the basis of ENGINEER's experience and qualifications and represent ENGINEER's best judgment as an experienced and qualified professional generally familiar with the industry. However, since ENGINEER has no control over the cost of labor, materials, equipment, or services furnished by others, or over the Contractor's methods of determining prices, or over competitive bidding or market conditions, ENGINEER cannot and does not guarantee that proposals, bids, or actual Construction Cost will not vary from opinions of probable Construction Cost prepared by ENGINEER. If OWNER wishes greater assurance as to probable Construction Cost, OWNER shall employ an independent cost estimator.

ARTICLE 5 - GENERAL CONSIDERATIONS

5.01 Standards of Performance

A. The standard of care for all professional engineering and related services performed or furnished by ENGINEER under this Agreement will be the care and skill ordinarily used by members of ENGINEER's profession practicing under similar circumstances at the same time and in the same locality. ENGINEER makes no warranties, express or implied, under this Agreement or otherwise, in connection with ENGINEER's services.

B. ENGINEER shall be responsible for the technical accuracy of its services and documents resulting therefrom, and OWNER shall not be responsible for discovering deficiencies therein. ENGINEER shall correct such

deficiencies without additional compensation except to the extent such action is directly attributable to deficiencies in OWNER-furnished information.

C. ENGINEER shall perform or furnish professional engineering and related services in all phases of the Project to which this Agreement applies. ENGINEER shall serve as OWNER's prime professional for the Project. ENGINEER may employ such ENGINEER's Consultants as ENGINEER deems necessary to assist in the performance or furnishing of the services. ENGINEER shall not be required to employ any ENGINEER's Consultant unacceptable to ENGINEER.

D. ENGINEER and OWNER shall comply with applicable Laws or Regulations and OWNER-mandated standards. This Agreement is based on these requirements as of its Effective Date. Changes to these requirements after the Effective Date of this Agreement may be the basis for modifications to OWNER's responsibilities or to ENGINEER's scope of services, times of performance, or compensation.

E. OWNER shall be responsible for, and ENGINEER may rely upon, the accuracy and completeness of all requirements, programs, instructions, reports, data, and other information furnished by OWNER to ENGINEER pursuant to this Agreement. ENGINEER may use such requirements, reports, data, and information in performing or furnishing services under this Agreement.

F. OWNER shall make decisions and carry out its other responsibilities in a timely manner and shall bear all costs incident thereto so as not to delay the services of ENGINEER.

G. ENGINEER shall not be required to sign any documents, no matter by whom requested, that would result in the ENGINEER's having to certify, guarantee or warrant the existence of conditions whose existence the ENGINEER cannot ascertain. OWNER agrees not to make resolution of any dispute with the ENGINEER or payment of any amount due to the ENGINEER in any way contingent upon the ENGINEER's signing any such certification.

H. During the Construction Phase, ENGINEER shall not supervise, direct, or have control over Contractor's work, nor shall ENGINEER have authority over or responsibility for the means, methods, techniques, sequences, or procedures of construction selected by Contractor, for safety precautions and programs incident to the Contractor's work in progress, nor for any failure of Contractor to comply with Laws and Regulations applicable to Contractor's furnishing and performing the Work.

I. ENGINEER neither guarantees the performance of any Contractor nor assumes responsibility for any

Contractor's failure to furnish and perform the Work in accordance with the Contract Documents.

J. ENGINEER shall not be responsible for the acts or omissions of any Contractor(s), subcontractor or supplier, or of any of the Contractor's agents or employees or any other persons (except ENGINEER's own employees) at the Site or otherwise furnishing or performing any of the Contractor's work; or for any decision made on interpretations or clarifications of the Contract Documents given by OWNER without consultation and advice of ENGINEER.

5.02 Authorized Project Representatives

A. Contemporaneous with the execution of this Agreement, ENGINEER and OWNER shall designate specific individuals to act as ENGINEER's and OWNER's representatives with respect to the services to be performed or furnished by ENGINEER and responsibilities of OWNER under this Agreement. Such individuals shall have authority to transmit instructions, receive information, and render decisions relative to the Project on behalf of each respective party.

5.03 Use of Documents

A. All Documents are instruments of service in respect to this Project, and ENGINEER shall retain an ownership and property interest therein (including the right of reuse at the discretion of the ENGINEER) whether or not the Project is completed.

B. Copies of OWNER-furnished data that may be relied upon by ENGINEER are limited to the printed copies (also known as hard copies) that are delivered to the ENGINEER. Files in electronic media format of text, data, graphics, or of other types that are furnished by OWNER to ENGINEER are only for convenience of ENGINEER. Any conclusion or information obtained or derived from such electronic files will be at the user's sole risk.

C. Copies of Documents that may be relied upon by OWNER are limited to the printed copies (also known as hard copies) that are signed or sealed by the ENGINEER. Files in electronic media format of text, data, graphics, or of other types that are furnished by ENGINEER to OWNER are only for convenience of OWNER. Any conclusion or information obtained or derived from such electronic files will be at the user's sole risk.

D. Because data stored in electronic media format can deteriorate or be modified inadvertently or otherwise without authorization of the data's creator, the party receiving electronic files agrees that it will perform acceptance tests or procedures within 60 days, after which the receiving party shall be deemed to have accepted the

data thus transferred. Any errors detected within the 60-day acceptance period will be corrected by the party delivering the electronic files. ENGINEER shall not be responsible to maintain documents stored in electronic media format after acceptance by OWNER.

E. When transferring documents in electronic media format, ENGINEER makes no representations as to long term compatibility, usability, or readability of documents resulting from the use of software application packages, operating systems, or computer hardware differing from those used by ENGINEER at the beginning of this Project.

F. OWNER may make and retain copies of Documents for information and reference in connection with use on the Project by OWNER. Such Documents are not intended or represented to be suitable for reuse by OWNER or others on extensions of the Project or on any other project. Any such reuse or modification without written verification or adaptation by ENGINEER, as appropriate for the specific purpose intended, will be at OWNER's sole risk and without liability or legal exposure to ENGINEER or to ENGINEER's Consultants. OWNER shall indemnify and hold harmless ENGINEER and ENGINEER's Consultants from all claims, damages, losses, and expenses, including attorneys' fees arising out of or resulting therefrom.

G. If there is a discrepancy between the electronic files and the hard copies, the hard copies govern.

H. Any verification or adaptation of the Documents for extensions of the Project or for any other project will entitle ENGINEER to further compensation at rates to be agreed upon by OWNER and ENGINEER.

5.04 Insurance

A. The ENGINEER shall maintain the following insurance:

1. Workmen's Compensation
2. Employer's Liability Insurance
3. General Liability Insurance
4. Automobile Liability Insurance

B. OWNER shall maintain similar insurance and shall cause ENGINEER and ENGINEER's Consultants to be listed as additional insureds on any general liability or property insurance policies carried by OWNER, which are applicable to the Project.

C. If requested, OWNER and ENGINEER shall each deliver to the other certificates of insurance evidencing the coverage's indicated. Such certificates shall be furnished prior to commencement of ENGINEER's services and at renewals thereafter during the life of the Agreement.

D. All policies of property insurance shall contain provisions to the effect that ENGINEER's and ENGINEER's Consultants' interests are covered and that in the event of payment of any loss or damage the insurers will have no rights of recovery against any of the insureds or additional insureds thereunder.

E. At any time, OWNER may request that ENGINEER, at OWNER's sole expense, provide additional insurance coverage, increased limits, or revised deductibles that are more protective than those specified. If so requested by OWNER, with the concurrence of ENGINEER, and if commercially available, ENGINEER shall obtain and shall require ENGINEER's Consultants to obtain such additional insurance coverage, different limits, or revised deductibles for such periods of time as requested by OWNER, and the agreed to fee shall be supplemented to incorporate these requirements.

5.05 Termination

A. The obligation to provide further services under this Agreement may be terminated:

1. *For cause,*

a. By either party upon 30 days written notice in the event of substantial failure by the other party to perform in accordance with the terms hereof through no fault of the terminating party.

b. By ENGINEER:

1) upon seven days written notice if ENGINEER believes that ENGINEER is being requested by OWNER to furnish or perform services contrary to ENGINEER's responsibilities as a licensed professional; or

2) upon seven days written notice if the ENGINEER's services for the Project are delayed or suspended for more than 90 days for reasons beyond ENGINEER's control.

3) ENGINEER shall have no liability to OWNER on account of such termination.

c. Notwithstanding the foregoing, this Agreement will not terminate as a result of such substantial failure if the party receiving such notice begins, within seven days of receipt of such notice, to correct its failure to perform and proceeds diligently to cure such failure within no more than 30 days of receipt thereof; provided, however, that if and to the extent such substantial failure cannot be reasonably cured within such 30 day period, and if such party has diligently attempted to cure

the same and thereafter continues diligently to cure the same, then the cure period provided for herein shall extend up to, but in no case more than, 60 days after the date of receipt of the notice.

2. *For convenience,*

a. By OWNER effective upon the receipt of notice by ENGINEER.

B. The terminating party may set the effective date of termination at a time up to 30 days later than otherwise provided to allow ENGINEER to demobilize personnel and equipment from the Site, to complete tasks whose value would otherwise be lost, to prepare notes as to the status of completed and uncompleted tasks, and to assemble Project materials in orderly files.

5.06 Controlling Law

A. This Agreement is to be governed by the law of the state in which the Project is located.

5.07 Successors, Assigns, and Beneficiaries

A. OWNER and ENGINEER each is hereby bound and the partners, successors, executors, administrators and legal representatives of OWNER and ENGINEER (and to the extent permitted by paragraph 5.07.B the assigns of OWNER and ENGINEER) are hereby bound to the other party to this Agreement and to the partners, successors, executors, administrators and legal representatives (and said assigns) of such other party, in respect of all covenants, agreements and obligations of this Agreement.

B. Neither OWNER nor ENGINEER may assign, sublet, or transfer any rights under or interest (including, but without limitation, moneys that are due or may become due) in this Agreement without the written consent of the other, except to the extent that any assignment, subletting, or transfer is mandated or restricted by law. Unless specifically stated to the contrary in any written consent to an assignment, no assignment will release or discharge the assignor from any duty or responsibility under this Agreement.

C. Unless expressly provided otherwise in this Agreement:

1. Nothing in this Agreement shall be construed to create, impose, or give rise to any duty owed by OWNER or ENGINEER to any Contractor, Contractor's subcontractor, supplier, other individual or entity, or to any surety for or employee of any of them.

2. All duties and responsibilities undertaken pursuant to this Agreement will be for the sole and exclusive benefit of OWNER and ENGINEER and not for the benefit of any other party. The OWNER agrees that the substance of the provisions of this paragraph shall appear in any Contract Documents.

5.08 Dispute Resolution

A. OWNER and ENGINEER agree to negotiate all disputes between them in good faith for a period of 30 days from the date of notice prior to exercising their right to arbitrate, or under law. In the absence of such an agreement, the parties may exercise their rights under law.

5.9 Hazardous Environmental Condition

A. OWNER represents to Engineer that to the best of its knowledge a Hazardous Environmental Condition does not exist.

B. OWNER has disclosed to the best of its knowledge to ENGINEER the existence of all Asbestos, PCB's, Petroleum, Hazardous Waste, or Radioactive Material located at or near the Site, including type, quantity and location.

C. If a Hazardous Environmental Condition is encountered or alleged, ENGINEER shall have the obligation to notify OWNER and, to the extent of applicable Laws and Regulations, appropriate governmental officials.

D. It is acknowledged by both parties that ENGINEER's scope of services does not include any services related to a Hazardous Environmental Condition. In the event ENGINEER or any other party encounters a Hazardous Environmental Condition, ENGINEER may, at its option and without liability for consequential or any other damages, suspend performance of services on the portion of the Project affected thereby until OWNER: (i) retains appropriate specialist consultant(s) or contractor(s) to identify and, as appropriate, abate, remediate, or remove the Hazardous Environmental Condition; and (ii) warrants that the Site is in full compliance with applicable Laws and Regulations.

E. OWNER acknowledges that ENGINEER is performing professional services for OWNER and that ENGINEER is not and shall not be required to become an "arranger," "operator," "generator," or "transporter" of hazardous substances, as defined in the Comprehensive Environmental Response, Compensation, and Liability Act of 1990 (CERCLA), which are or may be encountered at or near the Site in connection with ENGINEER's activities under this Agreement.

F. If ENGINEER's services under this Agreement cannot be performed because of a Hazardous Environmental Condition, the existence of the condition shall justify ENGINEER's terminating this Agreement for cause on 30 days notice.

5.10 Allocation of Risks

A. Indemnification

1. To the fullest extent permitted by law, ENGINEER shall indemnify and hold harmless OWNER, OWNER's officers, directors, partners, and employees from and against any and all costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals, and all court or arbitration or other dispute resolution costs) caused solely by the negligent acts or omissions of ENGINEER or ENGINEER's officers, directors, partners, employees, and ENGINEER's Consultants in the performance and furnishing of ENGINEER's services under this Agreement.

2. To the fullest extent permitted by law, OWNER shall indemnify and hold harmless ENGINEER, ENGINEER's officers, directors, partners, employees, and ENGINEER's Consultants from and against any and all costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals, and all court or arbitration or other dispute resolution costs) caused solely by the negligent acts or omissions of OWNER or OWNER's officers, directors, partners, employees, and OWNER's consultants with respect to this Agreement or the Project.

3. To the fullest extent permitted by law, ENGINEER's total liability to OWNER and anyone claiming by, through, or under OWNER for any cost, loss, or damages caused in part by the negligence of ENGINEER and in part by the negligence of OWNER or any other negligent entity or individual, shall not exceed the percentage share that ENGINEER's negligence bears to the total negligence of OWNER, ENGINEER, and all other negligent entities and individuals and in no case shall this liability exceed the maximum fee amount.

4. In addition to the indemnity provided under paragraph 5.10.A.2 of this Agreement, and to the fullest extent permitted by law, OWNER shall indemnify and hold harmless ENGINEER and its officers, directors, partners, employees, and ENGINEER's Consultants from and against all costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and

other professionals, and all court or arbitration or other dispute resolution costs) caused by, arising out of or resulting from a Hazardous Environmental Condition, provided that (i) any such cost, loss, or damage is attributable to bodily injury, sickness, disease, or death, or to injury to or destruction of tangible property (other than completed Work), including the loss of use resulting therefrom, and (ii) nothing in this paragraph 5.10.A.4. shall obligate OWNER to indemnify any individual or entity from and against the consequences of that individual's or entity's own negligence or willful misconduct.

5.11 Notices

A. Any notice required under this Agreement will be in writing, addressed to the appropriate party at its address on the signature page and given personally, or by registered or certified mail postage prepaid, or by a commercial courier service. All notices shall be effective upon the date of receipt.

5.12 Survival

A. All express representations, indemnifications, or limitations of liability included in this Agreement will survive its completion or termination for any reason.

5.13 Severability

A. Any provision or part of the Agreement held to be void or unenforceable under any Laws or Regulations shall be deemed stricken, and all remaining provisions shall continue to be valid and binding upon OWNER and ENGINEER, who agree that the Agreement shall be reformed to replace such stricken provision or part thereof with a valid and enforceable provision that comes as close as possible to expressing the intention of the stricken provision.

5.14 Waiver

A. Non-enforcement of any provision by either party shall not constitute a waiver of that provision, nor shall it affect the enforceability of that provision or of the remainder of this Agreement.
