ORDINANCE NO. 03-23

**AN ORDINANCE REPLACING AND AMENDING THE CITY OF JACKSON ELECTRIC UTILILITY RATES AS SET FORTH IN THE CITY OF JACKSON CODIFIED ORDINANCES AS SECTIONS 921.06 THROUGH 921.10 AND DECLARING AN EMERGENCY.**

WHEREAS, the current electric rates charged by the City are set forth in Sections 921.06 through 921.10 of the Codified Ordinances of the City of Jackson, and

WHEREAS, based on the recommendation of the City's utility rate consultant, Courtney & Associates, the legislative authority of the City of Jackson has determined it necessary to replace and amend the current electric rates so charged, and to repeal the current Codified sections 921.06, 921.07, 921.08, 921.09 and 921.10 in their entirety and to replace them as follows:

**Section 921.06. ELECTRIC SERVICE RATES:  
(include Exhibit A attached hereto, Sections I, II, III, IV and V)**

WHEREAS, in order to orderly implement the changes, the new rates shall be first used for calculation of the customers' electric invoices rendered on or after July 1, 2023,

**NOW, THEREFORE, BE IT ORDAINED BY THE LEGISLATIVE AUTHORITY OF THE POLITICAL SUBDIVISION OF THE CITY OF JACKSON, OHIO THAT SECTIONS 921.06 THROUGH 921.10 OF THE CODIFIED ORDINANCES OF THE CITY OF JACKSON BE REPEALED IN THEIR ENTIRETY AND REPLACED WITH A SECTION 921.06, ELECTRIC SERVICE RATES WHICH SHALL INCORPORATE EXHIBIT A AS ATTACHED HERETO AND HEREBY MADE A PART OF THIS ORDINANCE.**

It is hereby found and determined that all formal actions of this Council concerning and relating to adoption of this ordinance were adopted in an open meeting of the Council and the deliberations of the Council and any of it committees that resulted in such formal action were in a meeting open to the public, in compliance with all legal requirements, including Section 121.22 of the Ohio Revised Code.

PASSED AND ADOPTED by the Legislative Authority of the Political Subdivision on this 27<sup>th</sup> day of February, 2023.

Garrett A. Full  
President of Council

ATTEST:  
Cinca Nuhn  
Clerk of the Legislative Authority

Approved this 27<sup>th</sup> day of February 2023

Ramon  
Mayor

**Section I**  
**Residential Rate**

Availability/Applicability:

This rate is available to all individually metered single-family residences, single flats and single apartments for lighting, operation of appliances, cooking, space heating, water heating and incidental power. This rate is not available for multiple family units such as apartments, hotels, motels, boarding houses, dormitories or other similar premises.

Character of Service:

120/240 volts, single phase, alternating current, 60 hertz (cycles per second).

Customer Charge (per Month):

For bills due and payable after:	
July 1, 2023	\$ 5.00
January 1, 2024	\$ 7.50
January 1, 2025	\$ 10.00

Energy Charge (per kWh):

For each kilowatt-hour of billing energy:	\$ 0.115
---	----------

Outside Corporate Limits:

For any customer located outside the City's corporate limits, the rates and charges set forth above shall be increased by 25%.

Excise (Kilowatt-Hour) Tax Adjustment:

The rates set forth above shall be increased by an amount equal to excise (kilowatt-hour) tax imposed on the City's electrical distribution system under the Ohio Revised Code Section 5727.81, and shall be automatically adjusted to reflect any change in the kilowatt-hour tax imposed by Ohio Revised Code Section 5727.81.

Power Cost Adjustment:

The above rates shall be adjusted in accordance with the Power Cost Adjustment set forth in Section V of these Electric Service Rates.

Delayed Payment Charge:

Ten percent (10%) shall be added to the bill if not paid by the Due Date reflected on customer's bill for said Service, as provided in Section 921.05 of the City's Codified Ordinances.

Terms and Conditions:

This rate is only available to consumers whose entire requirements are measured through one meter. All electric service of the City is rendered under and subject to the General Service Rules and Regulations of the City as amended from time to time.

## Section II

### Commercial Rate

#### Availability/Applicability:

This rate is available only to those customers receiving Service under the City's comparable Commercial Rate prior to July 1, 2023.

#### Character of Service:

Standard single phase, secondary voltage, alternating current, 60 hertz (cycles per second) as presently utilized.

#### Customer Charge (per Month):

	<u>Single Phase</u>	<u>Three Phase</u>
For bills due and payable after:		
July 1, 2023	\$ 10.00	\$ 20.00
January 1, 2024	\$ 15.00	\$ 30.00
January 1, 2025	\$ 20.00	\$ 40.00

#### Energy Charge (per kWh):

For each kilowatt-hour of billing energy: \$ 0.135

#### Outside Corporate Limits:

For any customer located outside the City's corporate limits, the rates and charges set forth above shall be increased by 25%.

#### Excise (Kilowatt-Hour) Tax Adjustment:

The rates set forth above shall be increased by an amount equal to excise (kilowatt-hour) tax imposed on the City's electrical distribution system under the Ohio Revised Code Section 5727.81, and shall be automatically adjusted to reflect any change in the kilowatt-hour tax imposed by Ohio Revised Code Section 5727.81.

#### Power Cost Adjustment:

The above rates shall be adjusted in accordance with the Power Cost Adjustment set forth in Section V of these Electric Service Rates.

#### Delayed Payment Charge:

Ten percent (10%) shall be added to the bill if not paid by the Due Date reflected on customer's bill for said Service, as provided in Section 921.05 of the City's Codified Ordinances.

#### Terms and Conditions:

This rate is available only to those customers who are receiving Service under the City's comparable Commercial Rate prior to July 1, 2023. All electric Service of the City is rendered under and subject to the General Service Rules and Regulations of the City as amended from time to time.

## Section III

### General Service Rate

#### Availability/Applicability:

This rate is available to all non-residential commercial and industrial establishments for lighting, heating, cooking and power whose monthly use of power and energy do not generally exceed 50 kilowatts of demand and/or 10,000 kilowatt-hours per month .

#### Character of Service:

Standard 3 or 4 wire, single or three phase, secondary voltage, alternating current, 60 hertz (cycles per second).

#### Customer Charge (per Month):

	<u>Single Phase</u>	<u>Three Phase</u>
For bills rendered on or after:		
July 1, 2023	\$ 10.00	\$ 20.00
January 1, 2024	\$ 15.00	\$ 30.00
January 1, 2025	\$ 20.00	\$ 40.00

#### Demand Charge (per kW):

For each kilowatt of Billing Demand, per month: \$ 7.50

#### Energy Charge (per kWh):

For each kilowatt-hour of billing energy: \$ 0.110

#### Outside Corporate Limits:

For any customer located outside the City's corporate limits, the rates and charges set forth above shall be increased by 25%.

#### Excise (Kilowatt-Hour) Tax Adjustment:

The rates set forth above shall be increased by an amount equal to excise (kilowatt-hour) tax imposed on the City's electrical distribution system under the Ohio Revised Code Section 5727.81, and shall be automatically adjusted to reflect any change in the kilowatt-hour tax imposed by Ohio Revised Code Section 5727.81.

#### Power Cost Adjustment:

The above rates shall be adjusted in accordance with the Power Cost Adjustment set forth in Section V of these Electric Service Rates.

#### Delayed Payment Charge:

Ten percent (10%) shall be added to the bill if not paid by the Due Date reflected on customer's bill for said Service, as provided in Section 921.05 of the City's Codified Ordinances.

Determination of Billing Demand:

The Billing Demand shall be highest fifteen (15) minute integrated demand, ascertained in kilowatts by instruments suitable for that purpose.

Terms and Conditions:

A minimum monthly billing demand and minimum contract term may be established by the City to consumers having abnormal or fluctuating demand requirements. All electric Service of the City is rendered under and subject to the General Service Rules and Regulations of the City as amended from time to time.

## Section IV

### Large Power Rate

Availability/Applicability:

This rate is available, upon application, to power consumers for power, including lighting, where the monthly maximum demand of the consumer is at least 100 kilowatts each and every month of the past twelve (immediately preceding) billing months. This rate is not available for auxiliary, standby, or supplementary Service.

Character of Service:

Any secondary or primary voltage designated by the City. All Services are to be either single or three phase, 60 hertz, with balanced three phase loading.

Monthly Customer Charge (Per Meter Per Month):

For bills due and payable after:	
July 1, 2023	\$ 50.00
January 1, 2024	\$ 100.00
January 1, 2025	\$ 150.00

Demand Charge (per kW):

For each kilowatt of Billing Demand, per month:

For bills due and payable after:	
July 1, 2023	\$ 10.00
January 1, 2024	\$ 12.50
January 1, 2025	\$ 15.00

Energy Charge (per kWh):

For each kilowatt-hour of billing energy:

For bills due and payable after:	
July 1, 2023	\$ 0.082
January 1, 2024	\$ 0.077
January 1, 2025	\$ 0.072

Excise (Kilowatt-Hour) Tax Adjustment:

The rates set forth above shall be increased by an amount equal to excise (kilowatt-hour) tax imposed on the City's electrical distribution system under the Ohio Revised Code Section

5727.81, and shall be automatically adjusted to reflect any change in the kilowatt-hour tax imposed by Ohio Revised Code Section 5727.81.

Power Cost Adjustment:

The above rates shall be adjusted in accordance with the Power Cost Adjustment set forth in Section V of these Electric Service Rates.

Delayed Payment Charge:

Ten percent (10%) shall be added to the bill if not paid by the Due Date reflected on customer's bill for said Service, as provided in Section 921.05 of the City's Codified Ordinances.

Determination of Billing Demand:

The Billing Demand shall be the highest fifteen (15) minute integrated demand measured during the current billing period, ascertained in kilowatts by instruments suitable for that purpose; but not less than 50% of the highest fifteen (15) minute integrated demand measured during the last twelve (12) months.

Delivery Voltage:

The customer shall own, operate, and maintain all necessary substation and appurtenances thereto for receiving and purchasing all electric energy at the delivery voltage agreed upon by the customer and the City. The customer's demand and energy usage shall be measured as of the delivery voltage, or at the option of the City, at the secondary of customers' transformation voltage(s). If measured at secondary voltage, billing demand for energy shall be corrected for losses incurred.

Multiple Metering Points:

When Service to a single, contiguous facility is metered through multiple metering points, the meters shall be combined and the billed as a single service.

Contract Requirements:

At the option of the City, Service under this rate schedule may only be available under a Service contract with consideration for size, character and location of the consumer's load and the amount of facilities to be furnished by the City in serving said load. Contract term initially shall be at least three (3) years.

Terms and Conditions:

All electric Service of the City is rendered under and subject to the General Service Rules and Regulations of the City as amended from time to time.

## Section V

### Power Cost Adjustment

#### Applicable:

The rates and charges set forth in City's Electric Service Rates are based upon an assumed average cost of City's power supply. In the event that said monthly overall average power costs per kWh is increased or decreased due to changes in load characteristics, wholesale rates, fuel costs, taxes, other adjustments, or modifications to the City's power supply arrangements, City's Electric Service Rates to which this Power Costs Adjustment applies (except outdoor lighting) will be adjusted as specified below

#### Base Power Cost:

The overall Base Power Cost to be used to determine the adjustment applicable to the City's Electric Rate Schedules shall be that included in the City's retail rates of \$ 0.09004 per kWh.

#### Monthly Determination of Power Cost Adjustment:

- A. Each month, the City's running six month average Power Supply Cost per kWh shall be determined by dividing (1) the sum of (i) the previous five and current months' total power supply costs from all suppliers, plus (ii) the previous five and current months' net costs associated with ownership and operation of generating facilities owned in whole or in part, by the City, plus (iii) the previous five and current months' transmission related charges and credits and AMP Service Fees, by (2) the total energy delivered to the City in the previous five months and current month.
- B. If said running six month average Power Cost for the current month is ABOVE or BELOW the Base Power Cost of \$ 0.09004 per kWh, the rates per kWh set forth in City's Electric Service rates shall be INCREASED or DECREASED in the manner specified in (C) and (D) below.
- C. Any INCREASE or DECREASE per kWh ABOVE or BELOW the Base Power Cost of \$0.09004 per kWh shall be determined to five (5) decimal places (\$0.00000) and any resultant differential shall be divided by 0.85 to compensate for City's distribution system energy losses.
- D. The rates per kWh set forth in City's Electrical Service Rates shall be INCREASED OR DECREASED accordingly.

#### Application of Power Costs Adjustment to all Consumer Bills:

- A. Any applicable adjustment shall be applied to the kWh billed consumers for the meter reading period that the City determines as most nearly corresponding to the meter reading period(s) set forth in City's billings from its power supplier(s).
- B. All adjustments shall be applied to the total kWh billed to consumer and shall be in addition to the minimum charge applicable for the schedule involved.
